ABOUT ATLANTA GRADUATE SCHOOL THE SCHOOL

Atlanta Graduate School (AGS) was established in the United States. It is an international graduate school located in Atlanta, Georgia, United States of America and an African Regional Office in Abuja, Nigeria. It offers undergraduate, postgraduate and executive education programs in the State of Georgia and other parts of the world, where access to quality world standard training for upcoming and high profile entrepreneurs and professionals are lacking. The goal is to provide education and skill training in high demand career fields in which graduates and executive education delegates can expect to achieve gainful employment, or accelerated promotion; and to ensure that as the community develops and prospers; residents in these communities can be better prepared to take advantage of higher wage job opportunities that require specialized training and education. This is essentially imperative by the challenge of having graduates or employees, who are, either underemployed or unemployable, because of the serious gaps in their knowledge. AGS was established to truncate this unfortunate trajectory in gap in knowledge, skills and values by making available a veritable opportunity to redress these serious gaps by offering them programs of international standards in collaboration with reputable universities and institutions globally. In particular, AGS is aimed at bringing internationally moderated and recognized education to doorsteps of its products. Furthermore, AGS, in collaboration with top rank universities and higher institutions across the globe, especially in the United States, offers its potential applicants the opportunity to acquire graduate and postgraduate degrees to suite their lives dreams.

OUR STRATEGY

Our international flexibility allows us to run courses at a location that suits you.

AGS GOALS AND OBJECTIVES

The goal of AGS, include among others, advancement of professional and administrative governance by developing the use of effective technical skills in our students and delegates. These skills ensure our students possess grounded understanding of different areas of specialization and social cohesion leveraging on the achievement of higher level of job efficiency, professional development, career progression, management of business and administration of public entities. It is expected that our degrees, diplomas and proficiency certificates will cater to the academic interests of diverse students with the intention of turning out professionals capable of handling governmental and industry challenges in a dynamic global environment, and produce socially responsible and creative entrepreneurs.

In line with the mission and vision of AGS, and to facilitate the actualization of the needs of students and clients, the faculty and administration of the AGS have set for themselves the following objectives:

1. To provide special and graduate education that meets contemporary global best practices.
2. To provide educational programs that are in high demand and that will provide gainful employment opportunities for graduates, by continuously assessing the job market and offering programs that meet the current needs of the society and the industry.
3. To provide instructional and student-support services that create an engaging, caring, student-centered environment to facilitate student achievement of the defined learning outcomes, their educational goals, and their personal and professional development.
4. To provide in-depth educational and training programs that focus on legal, business, leadership, technical and professional development skills for the job market and industrial growth.
5. To provide our graduates with knowledge and skills that will enable them to make positive changes and advancements in their current jobs.
6. To assist employers by providing qualified workers who are educated and skilled in the professional and technical skills needed.
7. To assist our graduates in securing gainful employment in the graduate's initial position and in future positions according to the graduate's abilities, interests, and skills.
8. To provide a caring environment where students and faculty are engaged in the learning process improving the opportunities for successful completion of their program of study.
9. To continuously assess student outcomes to determine the effectiveness of educational and institutional goals and make changes as needed.

Education
is the most powerful
tool which you can use
to change the world.

ABOUT AGS TRAINING COURSES

AGS training courses are excellent, very thorough and methodical in content, well- structured to promote individual and collective discussion and thought. Our trainers are professionals. We operate at good quick pace with room for discussion and debate. Great practical exercises and group participation. The contents of the courses are very useful and directly relevant to both your professional and personal life. Furthermore, the courses are always production and efficiency driven, tailored towards industry needs and global best practices. The courses are always interesting, broad and well thought out. It is usually delivered with examples, live illustrations and, where necessary, with humor for easy understanding. More so, the professional trainer's presentations are always excellent, engaging and dynamic, enthusiastic, concise and well explained.

OUR DELIVERY METHOD

In AGS we have made sure that your course is highly interactive. In our interactive classes, our methodologies are varied. At times we allow our students to work independently doing a self-analysis exercise to make your innovations and create new initiatives. Ultimately, you will work with another or other delegates (in pairs or in threes; and finally, you will work in bigger groups). In all these there is always lots of interaction and boredom can never set in. Our content is well designed, simple to understand and use; and delivery so "homely" that our students and course attendees tell our resource persons how the time seemed to fly by. This is especially as AGS trainings are always applied to real-life situations, very beneficial and packed with useful functional knowledge assimilation. Our courses and delivery, outside being interactive are always interesting, well structured, practical and fun.

SPECIALIZED LEADERSHIP AND MANAGEMENT TRAINING COURSES
